Era

Era has been designed in the UK by Camira Fabrics, and to Camira's specifications. 100% Polyester engineered to include stretch, equal in both directions, meaning it is easy to upholster on a variety of furniture pieces including curved furniture, moulded furniture, larger soft seating as well as small pieces and vertical surfaces/panels. Problems such as bagging over time are eliminated as the elasticity in Era will allow it to move with user and adapt as the foam in seating compresses over time.
