Optical

We are delighted to be supporting the Fred Hollows Foundation with the release of this fabric; with every metre sold we will donate to this worthy cause. The Fred Hollows Foundation works to restore people's sight in more than 29 developing countries across Asia, Africa and the Pacific, believing that "there should be a world where nobody is needlessly blind".

Optical is designed to combine three modern abstract shapes - the oval, the circle and the square. The placement of these shapes purposely mimics the eye using the technique of "negative space".
