## at work\* with Camira

## **Kyoto**

Taking its cue from traditional Japanese textiles, Kyoto echoes the sweeping uniformity of the artisan stitching and resist dyeing techniques seen in age-old apparel with its geo-organic pattern. The striated grid is woven using an innovative printed yarn which creates the fluid and fluctuating broken check, adding an extra design touch and complementing the relaxed aesthetic of the lightly textured fabric.

Designed to work in harmony with Sumi's colour offering, the fabric's deliberately restrained palette allows for simple coordination of the two to create serene interiors as graceful as the fabrics themselves.

Application Heavy Duty Commercial Upholstery

Composition 90% Wool, 10% Polyamide

Width 138cm minimum

Abrasion Resistance 200,000 Martindale

Light Fastness 5

Weight 469gms per lineal metre

Flammability AS3837, ISO5660

Environmental Certified to Indoor Advantage™ Gold

Cleaning Vacuum regularly. Wipe with a damp cloth using soap

and water or use proprietary upholstery shampoo. For deeper cleaning use steam or professionally dry clean.
