Sting

Four years in the making, involving UK government funding and high level academic and scientific input, Sting is our most sustainable fabric ever. It's based on the common stinging nettle, which produces a uniquely strong, soft and naturally fire retardant textile fibre, blended with pure new wool to make a totally natural and sustainable textile upholstery solution.

Application	Upholstery
Composition	75% Virgin Wool, 25% Nettle Fibre
Environmental	Renewable and Compostable EU Flower Certified
Width	140cm
Abrasion Resistance	50,000 Martindale
