Monochrome Sett II

Monochrome Sett II introduces a sophisticated warm-neutral palette within one of Camira's most celebrated environmental collections. Rooted in nature, Monochrome Sett II is woven from renewable wool and flax, offering a naturally flame-retardant textile. The collection brings together tailored stripes, refined checks and classic houndstooth with bold basket weaves and graphic micro-patterns. Warm, grounded and quietly confident, Monochrome Sett II layers texture, depth and contemporary rhythm to enrich modern interior spaces.
